

Reeanactor Clothing Sale

A collection of men's and women's Civil War reproduction reenactor clothing has been donated to the Kent Civil War Society with the intention that in one way or another the clothing finds a new home. We appreciate this generous donation from Pam Brown and thank Andrea Shearer for bringing the items to the society. Initially we will offer the items to society members and anyone else interested in purchasing them at our meetings, with the proceeds going to the society's general fund to support operations. Whatever items remain at the end of February 2022 will be given to society members who want them or local reenactment groups.
